NOURISH

September 19 through November 29

The lines between food and art are fluid but the space they share is nourishment.
Napa Valley Museum, in collaboration with guest curator and artist, Nancy Willis, is thrilled to present NOURISH, a multi-faceted exhibition that examines the intersection of dining, hospitality and art from Napa Valley to the global community. This will be a unique chance to think about the way we relate to food and dining through the lens of art history and visual culture.
