

Consent to Record

I give my permission and authorize the University of California (“UC”), to videotape, audiotape, photograph, record, edit or otherwise reproduce my voice, image or likeness, and to use it in various formats and for the purposes within UC’s mission of teaching, research, public service and patient care. Distribution methods may include, but are not limited to the classroom, television (including UCTV, broadcast, cable, and satellite), the Internet (including webcasts and podcasts), print publications or any other medium now existing or later created. UC retains the right not to use the footage for other than archival purposes.

Any copyright-protected works which I deliberately provide or otherwise include as part of this recording are either my own property or works for which I have the permission of the copyright-owner to use in this way.

I grant, assign, and convey to UC all right, title and interest I, my heirs and assigns, may have in and to any recording made under this consent. I understand this total release of rights irrevocably means that UC may, without limitation, exercise all ownership rights including copyrights relating to the recording(s). This term does not apply to the content of the recording.

I agree to indemnify and hold harmless UC from and against any and all liability, loss, cost, or damage which it may incur as a result of my participation in this recording.

If signed by someone other than the person appearing (such as a parent of a minor child), I warrant that I have the authority to grant this permission on behalf of the person(s) appearing.

Definition of 'UC Witness':

The "Witness" can be anyone administrative or in charge of the project in their department. (e.g. Staff and Faculty employed by UCDavis).

We understand that it may be difficult to have a person, who is out of state, come in to sign the 'Consent to Record' form. An electronic signature is fine, as long as the "UC Witness" is certain that the person is who s/he says they are.

In this case -- please have the signer send the form back, either signed by hand and scanned/faxed, or with printed signature and signed as a PDF.

So it's possible to get participants who are no longer around to sign and send in their forms.
